With No 5, Pusey Street. Laid out with Beaumont Street as a unified terrace-type scheme circa 1837. The design is simpler than that of BEAUMONT STREET (qv). 3-storeyed Bath stone fronts on brick with cellars, a moulded cornice and a small parapet. Sash windows in plain reveals. Some of the doorways are coupled and have pediments. The windows have glazing bars and some have cast-iron grilles. 6-panel doors, some with fanlight, some with rectangular lights over. Some of the roofs are not visible behind parapets, some are slate mansards.

All the listed buildings in St John Street form a group.

We are changing the glass in a number of windows at 5 Pusey Street, OX1 2LA. All the glass is modern and all the window sashes and frames are modern, having been replaced within the last 20-25 years.

In addition, we are adding secondary glazing to a number of historic windows.

o Identify the heritage assets that will be affected.

The windows we are doing work to are identified in our application and on the enclosed plans.

o Set out what is important/significant about each asset (this is not simply a list entry regurgitated but should demonstrate that you understand the importance of the heritage assets).

The secondary glazing will sit on top of the existing window frames which will not be damaged in any way.

o Explain how the development impacts on each asset - harm

There will be no harm or change to any assets.

o Set out how the proposed work has mitigated/reduced the impact of any harm that will result from it.

There is no harm or change.

End.
