Details of the pre-application advice received
Initial advice given on 11/10/23 after site visit with planning officer and conservation officer Amy Ridding:
The proposal was considered not to have any significant impact on amenity of neighbours. The main issues raised were by the conservation officer in relation to the design and massing of the rear extension, which was considered to be dominant and incongruous in relation to the existing building and conservation area. It was advised that amendments are made in relation to the roof form and massing of the rear extension.
The conversation between the agent and the planning officer and conservation officer was kept open and updated sketches were circulated on 3/11/23 after a second meeting. No further objections were raised by the planning officer, and further comments were issued by the conservation officer. It was noted that the information provided was limited compared with a normal application, and that if a full application is made, the same level of detail as originally submitted should be included. It was noted that there were several improvements on the original design, with other areas requiring further information to assess fully, including the relationship between the ground and first floors of the extensions, and the junctions between roofs at the boundaries with neighbours.
Authority Employee/Member  With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member  It is an important principle of decision-making that the process is open and transparent.  For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.  Do any of the above statements apply?  Yes No
