Colour Bay

Head Star centre forehead upper eye level.
 Whorl centre forehead on midline at upper eye level.

Neck Whorl at throat on trachea.

LEGS
 LF No markings.
 RF No markings.
 LH No markings.
 RH No markings.

Body Stifle whorls left and right.
 Chest whorls left and right.

IDENTIFICATION PROCEDURE

The recommended procedure for identification is described in the F.E.I. booklet 'Identification of Horses'.

The diagram and written description must agree and must be sufficiently detailed to ensure the positive identification of the animal in future. White markings must be shown in red and the written description completed using black ink in block capitals or typescript. If there are no markings, this fact must be stated in the written description.

All head and neck whorls should be marked ("X") and described in detail. Other whorls should be similarly recorded in greys and in animals lacking sufficient other distinguishing marks. Acquired marks ("V") and other distinguishing marks, e.g. prophet's thumb mark ("†"), wall eye, etc., should always be noted.

AGE: In the absence of documentary evidence of age, animals older than 8 years may be described as "aged".

VETERINARY SURGEON Completed by Owner Mrs C Wilkinson and accepted by
