---

Hello Mia Thank you for your letter. In answer to your first point, your proposed change to the description is fine - please go ahead with this. As to details requested about the fence, please find attached 3 revised pdfs which include more details. I have not used new revision numbers for these, so they should REPLACE the pdfs with the same name that were previously uploaded. The gate wasn't shown on the existing drawing originally as we didn't realise it was significant. However, the shape from the front elevation is the same on existing and proposed. It is just that we would like to bring the fence forward about 4m between our garage and the neighbour's (No. 64). Please let me know if you require any further information or whether this is sufficient information for the application to proceed. Many thanks [REDACTED]
