Dear Planning Department

Please find attached householder planning application, the applicant will pay the £206 fee personally.

During the design process it was considered lowering the ridge line of the extension to show subservience, but due to the terraced nature of the wider building, it was considered that maintaining the built form was better Urban Design.

Also the prominence in the street scene was also investigated. With the building already forward of the adjacent 34 Sheridan Road, and the staggered built form beyond No 36 Sheridan Road, it is considered there would be no detrimental impact on the street scene.

We therefore respectfully request that permission is granted for the development proposal.

Kind regards

D J Green & Associates
