

## **Sustainability Statement - minor applications**

Sustainability standards Yes / No

### **A Net zero carbon**

1. *Has the building fabric been designed to standards of ultra-low energy demand?* N/A
2. *Has thermal comfort and the risk of overheating been assessed and passive design measures been prioritised?* YES

It is envisaged that the outdoor pool will have Automatic pool covers to reduce heat loss.

3. *Is the development fossil fuel free?* YES

Improved sustainability in the choice of materials to be used to build the pool and surrounding elements

4. *Will a net zero operational carbon balance be achieved and 100% of energy consumption delivered using renewables?* YES

Air Source Heat Pump

5. *Will embodied carbon emissions be minimised?* YES

Improved sustainability in the choice of materials to be used to build the pool and surrounding elements

### **B Travel**

Not Applicable

### **C Water**

Efficient water pool filtration system to be used

### **D Waste**

1. *Will the construction company be registered with the Considerate Construction Scheme?* YES
2. *Will a Site Waste Management Plan be followed and targets set for construction waste recycling and disposal?* YES
3. *Will there be safe and convenient access to waste recycling?* YES

### **E Voluntary sustainability standards**

Not Applicable

### **F Only for development affecting heritage assets or traditional buildings**

1. *Have the heritage value of the building(s) and impact on any heritage asset been appropriately assessed?* YES
2. *Is a whole building approach being taken?* N/A

3. *Will responsible retrofit measures be adhered to?* N/A
