Why do you consider that a Lawful Development Certificate should be granted for this proposal?

By adding solar panels to the home, it maintains environmental sustainability by contributing to renewable energy generation and reducing carbon emissions. The design of the solar panels has been created to minimize visual impact, ensuring it enhances the aesthetic quality of the surrounding area. There will only be 5 panels installed to the roof if this application is granted. The company installing these are also based within the Caerphilly area, so they will be fully compliant with the laws regarding the installation of these. On top of this, we believe that these will also be economically beneficial which will be a great help within the current climate.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- Yes
 No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact? (Please select only one)
