

Verification of Application Evidence

I started my Business a couple years ago working free lance for other chauffeur companies, I am now at the stage I would like to apply for an operating licence from TFL. In order to apply for this license I need the Lawful Development Certificate to show I don't need planning permission to work from a residential address.

No public access is needed to the property as all bookings are taken via telephone / email . No works have needed to be carried out as I am working from a small area within the front bedroom, No Bills, Invoices, Or receipts are needed as no works have been carried out.

Please see plans of house below.. Front Bedroom is where I have a small area to use as a home office.
