Client: Mr John Lloyd

Project: Proposed construction of New Sheep Shelter with Workshop, welfare and compost Toilet at Land adjacent to Pining Street and Gumphum Lane - Pining South Gloucestershire

Drawing: Proposed Elevations

Scale: 1:100 @ A3

Date: Sept 2023

Drawn: LJD Checked:

The Burford bat nesting box is made from solid, durable FSC® certified timber which provides great insulation. It features two different-sized chambers, making it suitable for pipistrelles in the smaller chamber and brown long eared bats and noctules in the larger chamber.

The bat attractor seed pack is a special native wildflower seed mix to attract insects for bats and includes a colourful and informative bat guide. The pack contains a special mix of wildflower seeds for night-scented plants, which attract insects to the flowers and are in turn are food for bats.

Please note that bats are a protected species and it is an offence to knowingly disturb an active roost without a license.

Measures: 44 x 21 x 15cm.

Bird Box Constructed from a mix of concrete and wood fibres, WoodStone® nest boxes safeguard against attacks from predators including woodpeckers, cats and squirrels. The material insulates the nest which creates a more consistent internal temperature than an ordinary wooden box. This is especially important during the breeding season and ensures that young birds have a greater chance of survival.
