Hard Paving to rear parking area + Garage Access

A self draining block paved parking area is to be constructed adjoining the existing public footpath (replacing the former parking area)
Access to the garage perimeter, will be paved with steps up to the raised lawn and up to the parking area.

Hard Paving to area adjacent to rear extension

The rear paved area is to be remodelled with porcelain slate paving. Paving is shown extended to the existing Cottage entrance,
Paving with gravel edging is shown to outbuildings and Cottage perimeter..

Permeable Blockwork Paving

Ceramic Paving

Footpath Stone Paving
