## Community Infrastructure Levy (CIL) - Form 1: CIL Additional Information

Determining whether a Development may be CIL Liable - For submission with Planning Application

**Please note:** This version of the form should only be used for submissions relating to planning applications in England. There is a legacy version of the form for use in Wales: Download the legacy version of this form

Following the introduction of the Community Infrastructure Levy (CIL) all applicants for full planning permission, including householder applications and reserved matters following an outline planning permission, and applicants for lawful development certificates are required to provide the following information.

Please read the associated Guidance Note before you complete the form. This and additional per-question help can be viewed at: https://ecab.planningportal.co.uk/uploads/1app/cil\_guidance.pdf

Please complete the form using block capitals and black ink and send to the Collecting Authority.

See Planning Practice Guidance for CIL for guidance on CIL generally, including exemption or relief.

Applicant or Agent Name:
O'CONNOR PLANS AND MAPPING
Planning Portal Reference (if applicable): PP-12627973
Local authority planning application number (if allocated):
Site Address:
Hollyhocks, The Green, Littleton Upon Severn, BS35 1NN
Description of development:

It is proposed that the current gated vehicular entrance opening is reduced from 3.18 metres in width to a 0.9 metre gate for pedestrian use only. The vehicular gated entrance will move 21.5 metres eastwards away from Hollyhocks and will be located behind the existing garage out of sight from the main building and will be splayed for greater visibility than currently exists. The materials used to construct new walls and replacement walls will match existing. The applicants have very young children and they consider that the location of the existing entrance is dangerous as the children can wander out of the building and out onto the road. The provision of a pedestrian locked gate reduced in size and the wall with a single gated entrance into the parking area means that the children can play freely in the garden without endangering themselves. Parking will be increased in capacity and located behind a new stone wall with a single gated entrance into the gardens of Hollyhocks. This wall will be constructed of stone taken from the existing frontal wall which will be removed to accommodate the new entrance. The existing driveway and patio will be replaced by a new stone patio and a footpath leading to the existing garage doors. The existing wall between the host building and the existing vehicular entrance will remain unchanged and the new pedestrian gate will be attached to it.
