Description of the Proposal

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or <u>access the fire statement template and guidance</u>.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

Description

Please describe details of the proposed development or works including any change of use

It is proposed that the current gated vehicular entrance opening is reduced from 3.18 metres in width to a 0.9 metre gate for pedestrian use only. The vehicular gated entrance will move 21.5 metres eastwards away from Hollyhocks and will be located behind the existing garage out of sight from the main building and will be splayed for greater visibility than currently exists. The materials used to construct new walls and replacement walls will match existing. The applicants have very young children and they consider that the location of the existing entrance is dangerous as the children can wander out of the building and out onto the road. The provision of a pedestrian locked gate reduced in size and the wall with a single gated entrance into the parking area means that the children can play freely in the garden without endangering themselves. Parking will be increased in capacity and located behind a new stone wall with a single gated entrance into the gardens of Hollyhocks. This wall will be constructed of stone taken from the existing frontal wall which will be removed to accommodate the new entrance. The existing driveway and patio will be replaced by a new stone patio and a footpath leading to the existing garage doors. The existing wall between the host building and the existing vehicular entrance will remain unchanged and the new pedestrian gate will be attached to it.
