

The copyright in this drawing is vested in Mongillo Construction Workshop (MCW) and no license or assignment of any kind has been, or is, granted to any third party whether by provision of copies or originals or otherwise unless

DO NOT SCALE FROM THIS DRAWING
The contractor shall check and verify all dimensions on site and report
any discrepancies in writing to Mongillo Construction Workshop (MCW)
before proceeding work

Electronic Data / drawings are issued as "read only" and should not be interrogated for measurement. All dimensions and levels should read, only from those values stated in test, on the drawing.

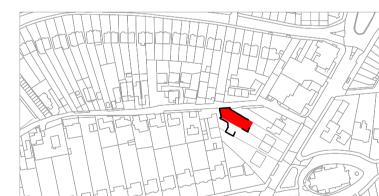

The areas are approximate and can only be verified by a detailed dimensional survey of the completed building. Any decisions to be made on the basis of these predictions, whether as to project viability, pre-letting, lease agreements or the like, should include due allowance for the increases and decreases inherent in the design development and building processes. Figures relate to the likely areas of the building at the current state of the design and using the Gross External Area (GEA) / Gross Internal Area (GIA) / Nett Internal Area (NIA) method of measurement from the Code of Measuring Practice. 6th (NIA) method of measurement from the Code of Measuring Practice, 6th Edition (RICS Code of Practice). All areas are subject to Town Planning and
