

# Application For Tree Works

**For office use only**

Ref no: \_\_\_\_ / \_\_\_\_

Works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area. Town and Country Planning Act 1990.

## Publication of planning applications on planning authority websites

Please note that with the exception of applicant contact details, the information provided on this application form and in supporting documents may be published on the authority's website. If you have provided any other information as part of your application which falls within the definition of personal data under the Data Protection Act which you do not wish to be published on the authority's website, please contact the authority's planning department.

Please complete using block capitals and black ink. You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area). It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application/notice cannot proceed.

### 5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? Yes  No   
Are you wishing to carry out works to tree(s) in a conservation area? Yes  No

## 6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below:

## 7. Identification of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give you proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant. E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

The tree of concern is one of the ash trees within the garden. We are asking permission to have it felled.

We have been informed by a tree surgeon that both the fully grown ash trees in the garden were suffering from "ash dieback " disease and would eventually have to be felled. One of the ash trees is situated adjacent to the west wall of the garden- please see attached map. The house is a grade 2 listed building and I understand that, because of this, the stone walls that surround the garden are also covered by the listing.

The ash tree of concern overhangs a vehicular access to 5 five further neighbouring properties. The tree roots are beginning to compromise the structure of the wall on the garden side. If the ash or branches of the ash were to come down in a storm it is likely to cause damage not only to the wall but to the neighbours' property and vehicles.

## 8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

### For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA Officer.

### For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details).

**1. Condition of tree(s)** - e.g. it is diseased or you have fears that it might break or fall: Yes  No   
If yes, you are required to provide written arboriculture advice or other diagnostic information from an appropriate expert.

**2. Alleged damage to property** - e.g. subsidence or damage to drains or drives. Yes  No   
If yes, you are required to provide for:

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

### Documents and plans (for any tree)

Are you providing separate information (e.g. an additional schedule of work for Question 7)? Yes  No

If yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application. If they are being provided separately from this form, please detail how they are being submitted.

## 9. Application For Tree Works - Checklist

Only one copy of the application form and additional information (Question 8) is required. Please use the guidance and this checklist to make sure that this form has been completed correctly and that all relevant information is submitted. Please note that failure to supply precise and detailed information may result in your application being rejected or delayed. You do not need to fill out this section, but it may help you to submit a valid form.

### Sketch Plan

- A sketch plan showing the location of all trees (See Question 8)

### For all trees (see Question 7)

- Clear identification of the trees concerned
- A full and clear specification of the works to be carried out

### For works to trees protected by a TPO (see Question 8)

Have you:

- stated reasons for the proposed works?
- provided evidence in support of the stated reasons? In particular:
  - if your reasons relate to the condition of the tree(s) - written evidence from an appropriate expert
  - if you are alleging subsidence damage - a report by an appropriate engineer or surveyor and one from an arboriculturist.
  - in respect of other structural damage - written technical evidence
- included all other information listed in Question 8?

## 10. Declaration - Trees

I/we hereby apply for consent/give notice for tree work as described in this form and the accompanying plans and additional information.
