

T1 - Field Maple - we are applying to remove/prune lower branches.

This is to:

1. Provide space for smaller adjacent tree and hedgerow to grow (their growth is currently inhibited by T1)
2. Remove encroachment of tree from adjacent building (garage) to provide sufficient clearance to property.

Yellow line shows the area covered by 1 Connors Close.

T1 - The circle in red shows the canopy of the tree this application relates to.

T1 - Field Maple - we are applying to remove/prune lower branches.

This is to:

1. Provide space for smaller adjacent tree and hedgerow to grow (their growth is currently inhibited by T1)
2. Remove encroachment of tree from adjacent building (garage) to provide sufficient clearance to property.

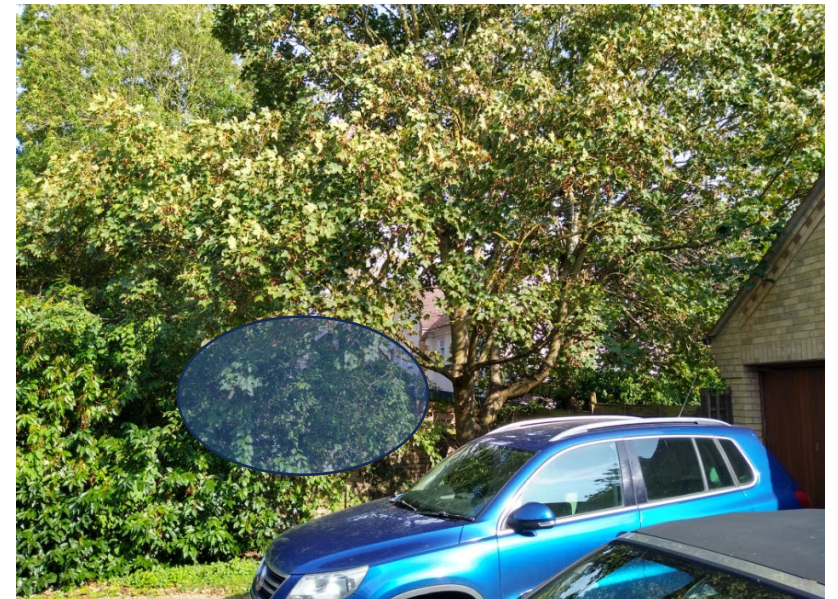

The images below show the extent to which the tree now encroaches over the garage and covers a nearby smaller tree and hedgerow stifling its growth

View of tree from front of garage showing encroachment.

View of tree from side/rear of garage showing encroachment.

View of tree showing how it covers a nearby smaller tree stifling its growth – smaller tree and hedgerow indicated by blue circle.
