This drawing is for Building Regulation purposes ONLY to ensure the safe use or habitation of a building. These drawings indicate in brief (but not limited to) details showing the broad principles of foul and surface water drainage, electrical services, insulation, structure, construction build ups, waterproofing, fire proofing and escape act., providing the broad principles to meet the current building regulations. These drawings can be sent to the local building control department or can be issued to an approved building inspector for determination. Building control drawings can be used to assist in obtaining a more accurate price for a builder/ contractor although this drawing does not contain full construction information.
