Details of the pre-application advice received

The fenestration should be balanced and generally have vertical proportions. The approach to the east and west elevations should be revisited, ensuring vertical alignment on the west elevation and reducing the size of the fenestration on the east elevation, increasing the solid to void ratio.”

This is supported by the Landscape Officer who has advised:

“Given the prominence of the site from the adjacent PROW, highway and surround Area of Open Access and its location within a visually open landscape, the effects of the proposals on the character and visual amenity of the local landscape would depend on the design, scale, mass, layout, roof design and materials used; the plans submitted suggest that there would be potential for some locally significant effects due to the design of the dwelling , of particularly note is the form of the proposal and the proposed layout of the fenestrations, particularly on the gable ends which do not reflect a rural local vernacular dwelling to this regard would not constitute a good design. The number of windows appears to be, being driven by each room having multiple windows, for example the bedrooms having 3-4 windows.”

The basic principles of designing in sympathy with the local tradition:

1. Keep to a simple plan and roof shape.
2. Maintain a high solid to void ratio.
3. Keep the types and number of openings to a minimum and arrange them with care. Houses within open countryside tend to have a symmetrical pattern of openings arranged around an opening placed on the central axis and of vertical emphasis.
4. Keep the number of openings on gables to the minimum wherever possible. Gable ends have a much higher solid-to-void ratio than other elevations with either no or only a few well positioned small windows.

To this regard, the recessed element on the northern elevation should be removed to have a simple rectangular plan form, number of windows in the gable ends reduced and the smaller upper windows removed on the south elevation or replaced with a single window above porch.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Yes

No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Yes

No

Is any of the land to which the application relates part of an Agricultural Holding?

Yes

No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
