**STATEMENT REGARDING THE NEED TO REPLACE WINDOWS AT
4 WHITE HART COURT, FAIRFORD, GLOUCS, GL7 4NH**

The two current windows that we are looking to replace in the property are of softwood and have been in situ for at least 30 years. The windows are single glazed and now need to be replaced. They leak heat in the winter time and gather huge volumes of condensation that encourages damp around the frames and on the surrounding walls.

We would like to take the opportunity to replace these with hardwood, double-glazed units in the same design for reasons of sustainability and environmental efficiency. The window frames will be painted in white; the same as they are now.

Yours sincerely

Jo Mainwaring
