Details of the pre-application advice received

There was concern that the extensions would be visually intrusive detracting from the host property and the surrounding Southborough Conservation Area. We have considered the advice and redesigned the extensions so that there are no gable ends to the side, so from the front elevation it would look very similar to how it currently does. Another concern was that the front dormer would be a discordant and awkward addition. For the staircase to work the dormer extension to the front elevation is critical, but we adjusted it so that it is central in the front elevation so that it feels more symmetrical. There are no trees on the property that will be effected by the work especially since the foundations will not be effected. The neighbours do have a large tree close to the boundary and we would be happy for the planning application to have a condition that requires an arboricultural assessment that will ensure that no scaffolding or building works would cause any damage to crown of the tree.

## Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Yes

No
