

Climate Emergency Compliance Form for householder applications

742 – 18 Milehouse Road

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.

Climate Emergency Compliance Form			
Requirement	Is the requirement being met onsite? In full (F) In part (P) Not at all (N)	If 'in full or in part', which document/plan is the evidence included in;	If 'not' or 'in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance
Mitigation			
MI – Min 1kw of onsite renewable energy generation	N	(Panels shown on roof plan and elevations)	Existing roof elevations not suitable for solar panels by way of dormer structure (rear). New roof is flat and not suitable for panels by way of available size and orientation.

ORIENTATION – Front is SE

OFFICIAL

M4 – Resilient and low carbon building materials	N	<i>(Proof of slate origin and warranty period)</i>	Flat roof with suitable Fibreglass or EDPM roof covering.
M6 – Electric vehicle charging points	N	<i>(Shown on plan if extension is adjacent to parking space. Should be shown as a minimum 7kw charger.)</i>	<i>(Will not be applicable if the proposal isn't adjoining an existing off-road parking space) Not adjacent parking space.</i>
Adaptation			
A1 – Passive solar design <i>(All apps)</i>	N/A	Additional documentation not required whilst this measure is under review.	Additional documentation not required whilst this measure is under review.
A2 – Protecting our soil resource <i>(All apps)</i>	F	<i>(Supporting statement if applicable) Existing concrete patio area to be removed and replaced. The ground conditions are subject to further investigation on site. Soils can be re-located on site as terracing..</i>	Design of works to reduce both extent of excavation and also concrete to form support foundations. Soil excavated will be redistributed across the existing garden.
A3 – Protecting and enhancing tree cover <i>(All apps)</i>	N	<i>(Supporting statement if applicable)</i>	One existing shrubs to be removed. Lawned garden to be created.
A4 – Protecting and enhancing gardens, green spaces and greenfield sites <i>(All apps)</i>	F	<i>(Supporting statement if applicable)</i> No changes proposed to existing gardens.	
A5 – Delivering sustainable drainage, surface water management and restricting urban creep <i>(All apps)</i>	F	<i>(Supporting statement if applicable)</i> All surface water run-off to ground or a soakaway located in the rear garden, believed as existing.	
If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please	None proposed.
