Hi Matthew, I have the forms ready to send back. I feel I have been a bit useless when completing them as I have multiple issues, with multiple trees spread over two/three gardens, some trees have preservation orders – and its hard to tell which relates to which as there are so many trees in close proximity running down the side of my boundary.

I have completed the form, see attached.

Really all I need is a conversation with someone in the know regarding which trees can be cut back in partnership with my neighbour's agreement – and which I have to apply through planning.

Do you need me to supply photos now? I stopped short of any further detail as I didn't want it to be incorrect!

Kind regards

Alex Clayton

Dear Alex

Please find attached the appropriate application form for your use.

Once an application is received and validated my colleague will then be able to carry out an inspection.

I hope this is of assistance

Regards

Matt Clarey

Hello

I emailed the below last week and haven't received a reply yet.

Could someone get back to me asap.

Kind regards

**Importance:** High

Hello

Who do I speak to at the Council regarding unsafe trees?

I have a number of issues with trees on neighbours' boundaries that are leaning over to my property which I feel are unsafe and would cause severe damage to my property. A couple of them don't look very healthy.

One tree in particular leans over my chimney and is almost touching the top of it – this should be considered a fire risk?

They also cause inconvenience to me from a light point of view and take a lot of time to clear up fallen leaves, pine needle etc

I would like some guidance on how I proceed here.

Kind regards

Alex Clayton  
Director
