Front yard to no 14

Front yard to no 15

This is an in town site & the front yard to each property is small & there is very little scope for a maintenance of a green garden.

Though the new owners always have the right to allow themselves to make something if they wish.

However at this stage we wish to keep the proposals to a minimum with the retention of the gravel. This would then give the owners an opportunity to have a small amenity space.

The parking of bicycles etc also need to be allowed for.
With this in mind it is proposed that each yard has a wooden tub with a *Prunus Lusitânica angustifolia* bush.
