

IMPORTANT

FIVE DAYS NOTICE OF INTENT

Take notice that in accordance with the Town and Country Planning (Tree Preservation) (England) Regulations 2012, five working days from the date of this correspondence Branch Management Tree Services intends to fell to ground level three dead Scots Pine trees (*Pinus sylvestris*) to abate a danger and threat to persons and property.

The trees are situated in the rear garden of West View House, Heath Rise, Camberley, Surrey, GU15 2ER.

The law makes it clear that in terms of TPO exceptions, dangerous means '*immediate risk of serious harm*'. Therefore a risk assessment has assessed the above named tree and the likelihood of it falling on a vulnerable or valuable target is high.

Photographs of the tree[s] concerned and the structural compromise together with written details has or will be provided at the earliest opportunity. The local planning authority Arboricultural Officer is invited to visit the site.
