Thank you for consulting me on thi application.

The works described to T5, T22 and T 23 are not specific enough to be enforceable.

In principle I have no objection to the proposed works conditionally upon them being carried out in accordance with BS3998 2010,however

I would suggest that the applicant is requested to clarify the extent of work in terms of wording.

When this clarification is available I will happily pass further comments.

Kind regards

Dave
