Description of Proposed Works

Please describe the proposed works

Supply and installation of 2 x Grant Aeron3 10kw air source heat pumps model no. HPID10R32 to replace oil fired warm air heating system. The elderly customer has no heating as her current heating is supplied by a broken and obsolete oil fired warm air heating system. The proposed 2 x ASHP will replace the oil fired system. Customer is over 80 years of age and has been without heating for 4 weeks at this stage. Please note there is already an ASHP onsite in the converted garage building as seen on the plans; this is separate to the main building. We have supplied plans which show the proposed location of the 2 ASHP. Property faces a farmer's field on the side facing the proposed ASHP and the nearest dwelling is over 30 metres away therefore we don't see any issues with this installation.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
