Good Evening,

Please see attached the form to discharge Conditions 4, 5 and 6 of our planning application of Listed Building Consent DC/23/00573.

Please see attached the following:

1. Application Form to Discharge Conditions
2. A link for the PCS200 Jelly Paint Stripper- <https://performance-chemicals.net/our-products/p/pcs-200>
3. Manufacturer specification of NHL3.5 to be used for the mortar on the external wall, sourced from Anglia Lime Company - we will also be sourcing "well graded sharp sand" and limewash from Anglia Lime Company, but they do not have any specific data sheets for this.
4. The DOFF system does not have a data sheet either, however has been brought up with previous consultation with the Heritage team (in respect to the original planning application pre-advice).

Please note that for Condition 4, we originally anticipated that bricks would need replacing, however the condition of the brickwork has been inspected and replacement bricks will not be necessary, only the lime mortar as needed.

Do let me know if you have any questions, or whether I have missed something as an attachment or on the form.

Kind regards

Matt
