Subject: 15 Castle Street, Liskeard

Hi Ben

Further to our telephone conversation I am sending you the relevant sections of the listed building consent that we started filling out. We have filled in and sent the letter today.

Attached is a picture of the wooden sash window proposed. The second picture is showing that they were 2 over 2 windows. The third is the windows we fitted.

Regards

Arron Hambly

Description of Proposed Works

Please describe the proposed works

* Required

We would like to fit wooden sliding sash windows to our property with double glazed units rather than single glazed units. This is due to road noise and raising heat retention costs. Also in light of the fact that number 11 seems to have previously been given the same. We are proposing 2 over 2 sliding sash with run through horns
