

## **Reason for work to T2 and T4 at 8 Belmont Hill London SE13 5BD**

Reason for work is to reduce the crown of each of the two Tree of Heaven trees (T2 and T4) to 10 - 11m (retaining sufficient crown branch framework).

To carry out these works while the trees are not in full leaf and to keep them a manageable height following the increasing number of severe weather events (strong winds) that have been occurring.
