Subject: Ash tree

★ Tree Surgeon
Kevin Fowler

Hi Deborah,

Following on from your visit to look at the Ash tree in your rear garden.

The tree has a fair amount of dead wood in it and being very close proximity to your house and almost touching the roof, it may be an idea to consider removal of the tree.

An application will be required as it is in a conservation area. If this is approved, I will be happy to carry out the works for you.

Kind regards,

Kevin
