

Design Access Statement

The application is for replacement of existing door to the side elevation of Grade 2 Listed property, 53 The Street, Uley. The existing door is a modern replacement door constructed from a non durable softwood. It has a painted finish. The door is a poor fit and is rotten beyond viable repair. The proposed new door will be constructed from hardwood, in a traditional style and in keeping with the building. It will receive a painted finish.

Access will not be affected and the existing threshold height will not be increased.
