"This statement is written to accompany an application for planning permission as required by the Town and Country Planning (General Development Procedure) (Amendment)(England) Order 2006 [SI 1062 2006]/ Town and Country Planning (General Development Procedure) Order 1995 Article 4C."

Design

The design section of this statement must include:

A demonstration of the steps taken to appraise the context of the development. Context covers the physical, social, economic and policy circumstances and facts that relate to the site (this is explained further in the guidance notes).

Please enter any information relevant to this in this box:

Height of chimney to be increased to 1.8m above the thatch to comply with insurance requirements. Stack to be increased by using matching imperial red bricks with matching mortar. no other changes to be made.

An explanation of the design principles and concepts that have been applied to the aspects specified in (i)-(v) below. This should include an explanation of how the scheme takes the site context (physical, social, economic and policy context) into account in relation to its proposed use and each of those aspects.

Amount

(i) This means the number of residential units and the floor space of each non-residential use of the site:

Proposed changes only to affect 1 residential unit - namely Humphreys Green

Layout

(ii) This means the way in which buildings, routes and open spaces are provided within the development and their relationship to buildings and spaces outside the development:

Not applicable

Please enter an explanation of:

(i) how any specific issues which might affect access to the development have been addressed:

Not applicable

(ii) how prospective users will be able to gain access to the development from the existing transport network:

Not applicable

(iii) why the main points of access to the site and the layout of access routes within the site have been chosen:

Not applicable

(iv) how features which ensure the maintenance of access to the development in the future:

No applicable

Scale

(iii) This means the height, width and length of each building proposed in relation to its surroundings:

Increasing the height of the chimney to 1.8m from top of thatch

Landscaping

(iv) This means the treatment of private and public space to enhance or protect the site's amenity through hard and soft measures, for example, through planting of trees or hedges or screening by fences or walls. It may include protection of existing biodiversity and measures to enhance the biodiversity value of the development site:

Not applicable

Appearance

(v) Appearance. This means the aspects of a building or place which determine the visual impression it makes, including the external built form, materials used in the development:

Increasing the height of the chimney to 1.8m above the thatch

Access

A demonstration of the steps taken to appraise the context of the development. Context covers the physical, social, economic and policy circumstances and facts that relate to the site (this is explained further in the guidance notes).

Enter here an explanation of the applicant's approach to providing access, and how government policies relating to access in relevant local development documents have been taken into account:

Not applicable

Enter here a statement of what, if any, consultation has been undertaken on issues relating to access to the development and what account has been taken of the outcome of any such consultation (for example with County Highways, Uttlesford Area Access Group):

Not applicable
