ECOLOGY ENHANCEMENT

2no. Bird Boxes

Standard Bird Box-Suitable for a wide variety of species. Can be installed in trees and buildings.

Bird boxes should be positioned facing north to east, between 1.5 and 3m height depending on the targeted species.

Hedgehog Nest Box

Exterior quality 12mm resin bonded ply. The box remains untreated on the inside.

Best situated in a quiet corner of the garden, and covered with leaves and other garden debris.

2no. Solitary Bee Hives

Designed specifically to attract non-swarming bees like the Red Mason Bee, Leafcutter Bee and other solitary bees which are naturally attracted to holes in

Site in a visible warm place ideally oriented to face between southeast and south and to catch some sun. It is helpful to have soil nearby, and food sources such as flowers, orchards and fruit.

The above line measures 200mm in length when printed correctly

This drawing is for Planning purposes only.
All dimensions to be checked on site.
