

Dear Sir/Madam

We have applied for 2 new parking spaces with dropped Kerbs
Due do all the parking restrictions around mill hatch due to a lot of issues
With neighbouring units dumbing cars everywhere it makes it hard for my staff
To park

So due to expansion with new contracts I need more spaces for extra staff

I applied for parking permits for the now parking for Mill Hatch workers
We were refused permission as we are not Mill Hatch workers, even thou
We are next to the car park, and only 2 cars park there as everyone else
Refused to pay for permits, so all day long lorries park here as no traffic
Wardens come down here , so we cant park there but seems everyone else
Can do what they like

Due to this I have had to apply for planning to build my own spaces
On my own land at my cost

Hope this explains why we have applied for planning
