About this item

- **[Excellent Sturdiness]** Overall construction of this bike rack is made of thickened steel pipes and every connection is fixed with high-quality screws, both of which definitely enhance the whole sturdiness. Due to these characteristics, the bicycle rack will offer you fairly stable parking space.
- **[Simple but Practical Design]** Crafted with weather-resistant anti-rust steel, this bike stand can be also used outdoors. Also, its structure allows bikes parked in the same or opposite directions to cope with the situation that bikes handle bars might conflict.
- **[Eliminate Potential Clutter of Bike Parking]** This floor bike rack is low profile and fits all standard child, BMX, road and mountain bikes. You can easily make bikes standing in this rack and keep them organized. No more cluttered bikes laying around in your garage or yard.
- **[Compact Design Holds Up to 4/5/6 Bikes]** This bicycle rack has a compact size without taking too much space when bikes are not parked. It could be applied at home, school or just personal use, convenient for you to park and store up to 4/5/6 bikes at once.
- **[Effortless Assembly]** All needed accessories are included in the package, with our detailed manual, the assembling process will
