Walnut tree has 3 heavily weighted branches that overhang the roadway and parking bays. Risk of splitting and falling on to bays causing injury or damage to public or vehicles.

1 x large Walnut tree in rear of car park requires 3 x heavily weighted limbs to be removed. Limbs due to heavy weight now have potential to split and fall on to public or vehicles. Limbs are now causing issues for larger vehicles turning in the area. Tree to be cut to best horticultural practice.
