Description of the Proposal
Please note in regard to:
<ul> <li>Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.</li> <li>Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.</li> <li>Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.</li> </ul>
Description
Please describe details of the proposed development or works including any change of use
Locating of one 32' x 8' cabin and one 20' x 8' shipping container on the grassed area to the rear of the school. The units will stand on levelled paving stones. The units will be used by the school's combined cadet force (CCF) to store equipment and clothing. The CCF is an educational partnership between the school and the Ministry of Defence. The units will be painted in a suitable colour to match the surroundings.
Has the work or change of use already started?
○ Yes
⊗ No
Existing Use
Please describe the current use of the site
The site area is a section of grass outside of the sports field area and is only currently used for pupil break times.
Is the site currently vacant?
○ Yes
⊗ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.
Land which is known to be contaminated  ○ Yes  ⊙ No
Land where contamination is suspected for all or part of the site  ○ Yes  ⊙ No
A proposed use that would be particularly vulnerable to the presence of contamination  ○ Yes  ○ No
Materials
Does the proposed development require any materials to be used externally?  ⊘ Yes ○ No

Proposed materials and finishes: Propriety Walls  Existing materials and finishes: Proposed materials and finishes: Multi-profiled 1.6mm thick pressed steel panels, welded to one another and the structural frame. All surfaces are guarded with a heavy rust prohibitive paint. Exact colour is the, but will be repainted to assimilate with the surrounding environment (likely leaf green). a new or altered vehicular access proposed to or from the public highway?  Yes		
a new or altered vehicular access proposed to or from the public highway?  Yes		
Yes	edestria	an and Vehicle Access, Roads and Rights of Way
Yes		
	Yes No	

Is a new or altered pedestrian access proposed to or from the public highway?  Or Yes
⊗ No
Are there any new public roads to be provided within the site?
<ul><li>○ Yes</li><li>⊙ No</li></ul>
Are there any new public rights of way to be provided within or adjacent to the site?
<ul><li>○ Yes</li><li>⊙ No</li></ul>
Do the proposals require any diversions/extinguishments and/or creation of rights of way?
<ul><li>○ Yes</li><li>⊙ No</li></ul>
Vehicle Parking
Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Please provide information on the existing and proposed number of on-site parking spaces
Vehicle Type:
Cars
Existing number of spaces: 40
Total proposed (including spaces retained): 40
Difference in spaces:
Trees and Hedges
Are there trees or hedges on the proposed development site?
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?
If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk
Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)  Yes  No
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?  ○ Yes  ⊙ No
Will the proposal increase the flood risk elsewhere?  ○ Yes  ⊙ No
How will surface water be disposed of?
✓ Sustainable drainage system
☐ Existing water course
Soakaway
☐ Main sewer
☐ Pond/lake
Biodiversity and Geological Conservation
Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?
To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.
biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.  a) Protected and priority species
biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.
biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.  a) Protected and priority species  Yes, on the development site  Yes, on land adjacent to or near the proposed development

PRE28/23/01859
Date (must be pre-application submission)
09/10/2023
Details of the pre-application advice received
If you wish to proceed to submit a formal application, full planning application forms should please be completed and accompanied by a fee of £234, a site location plan (1:1250) including a north arrow with the application site edged in red, existing and proposed site layout plans (to a recognised metric scale) also including the position of existing trees and hedging, details of the container, including dimensions and colour finish and a Heritage Statement given the position of the site within a Conservation Area.  I would suggest that the container is finished in a suitable colour to help assimilate the proposals with the surrounding environment. In addition, the proposed site plan should please also show the position of the container in relation to existing trees and hedge line and a suitable distance should be left so the proposals do not impact upon the existing planting or root protection areas.  Any application would be subject of formal consultations which would include Sport England. I would therefore express possible reservations regarding a submission in this regard in relation to any comments they may have given the proximity of the container to the playing field.
Authority Employee/Member  With respect to the Authority, is the applicant and/or agent one of the following: a) a member of staff b) an elected member c) related to a member of staff d) related to an elected member t is an important principle of decision-making that the process is open and transparent.  For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.  On any of the above statements apply?  Yes No
Ownership Certificates and Agricultural Land Declaration

First Name
