

## **Heritage Statement**

**Wolsingham School, The Grammar School Building, West End, Wolsingham, Co Durham DL13 3DJ**

**Planning Application Reference: PP-12608929**

The application site is within a designated conservation area. The site is the grounds of Wolsingham School. A new extension to the school was constructed in approximately 2015. The proposed location of the application is within the grassed area behind the building. The location will be behind a stone wall and border trees.

The proposed works will be the siting of two cabins for use by the school's Combined Cadet Force (CCF). The cabins will be located away from the perimeter wall and tree roots as per the attached diagrams. The cabins will be of a metal construction and painted to be in keeping with the surroundings. The cabins will be sited on paving stones so will be limited ground disturbance.

Due to its location, the proposed works will not spoil views from a small number of dwellings and will not disturb wildlife.
