Hi Sharron,

Please find attached revised drawings which indicate the new wall and door access to the rear elevation. All other elevations are to remain as existing.

I would suggest the description as being;

Conversion of existing offices to 1no. 2 bedroom flat with external bin and cycle storage area, and amended means of access to second floor apartment and means of escape from ground floor offices.

Regards

Clive

Hi Clive, apologies for not coming back to you on this amendment. I will need to start the clock again on the revised proposal and carry out consultations.

However, having looked at the revisions, given that there are only internal alterations proposed to the existing second floor flat, I would consider that the proposal is now for 1No. 2 bedroom flat and external alterations proposed on the rear elevation for the means of escape (please update proposed elevations to show this).

Please can you provide me with a revised description and revised plans to show the minor external alterations and I will then carry out the consultations for the revised scheme.

Many thanks

Regards
