Description of Proposal
Does the proposal consist of, or include, the carrying out of building or other operations?

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)
The proposed project involves the construction of a single-story side extension designed to serve as a utility porch, accommodating essential appliances such as a washing machine, dryer, and sink. The extension is planned to be positioned approximately 15 meters from the pavement along Claremont Avenue and set back approximately 7 meters from the front facade of the house. To maintain architectural cohesion, the primary materials employed in the extension will consist of brick and roof tiles, carefully selected to
harmonize with the existing aesthetic of the house. Both the front and rear elevations of the extension will feature strategically placed doors to enhance accessibility and functionality through the extension.
