Hi there,

Ref: 24/00026/LBC.

In response to your later dated 18/01/24, I have attached additional documents as requested.

I can confirm that the proposed gate would be inward opening and will not protrude over the footpath when open. A sketch plan with dimensions showing how the gate would operate in the recess is attached, along with illustrative photos and a heritage statement.

If you require any further information please do let me know.

For additional context, we are still experiencing the issues outlined (increasing incidents of antisocial behaviour, drug use, public urination/defecation) so would love to be able to install the gate ASAP.

Best Wishes,

Liam Kilvington  
Director, That Place Ltd.
