

Clifton Area Crime Data

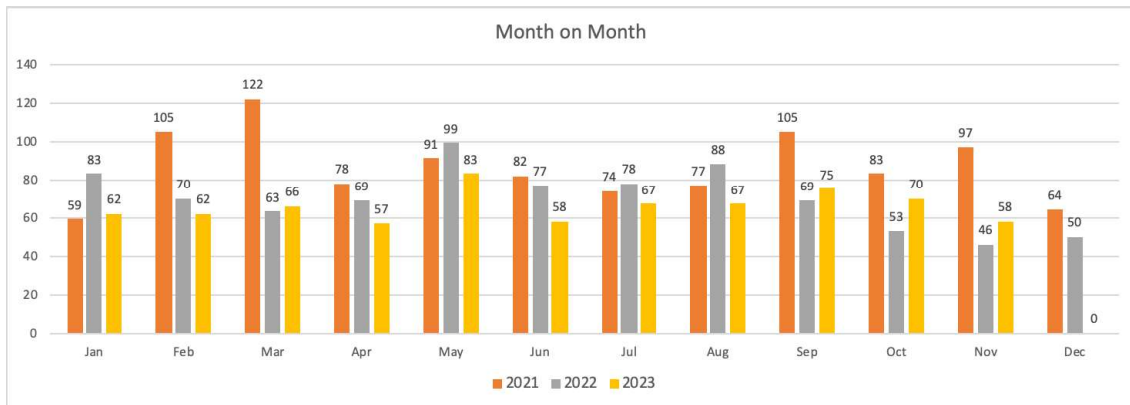

Supporting document for Mr. and Mrs. Lindon, 14 Clifton Green, YO30 6LH

The purpose of this document is to support the recommendations from the Designing Out Crime Officer and Heritage Architect in the desire to repair and rebuild the Love Lane wall. They will look to incorporate a portion of the wall into the house build to exist as an exterior wall. As the owners of one side of the Love Lane wall, there is a wooden access door, that allows them right of way access, that is in a state of disrepair. They are not looking to maintain the access to love lane and instead would like to close this off and deter anyone from wanting to access the property through the door.

Over the past few years there has been a focus to reduce Drugs, Anti-social behaviour, and violence in the area as mentioned in various York press articles. The noticeable decrease in some offences is apparent in the crime statistics as shown below. However, there has been an increase in burglaries and shoplifting shown in the data as well as through anecdotal information through press releases (via York Mix and The York Press). While many of the Antisocial Behaviour and violent offences are occurring away from the Clifton Green area, the Burglary and Vehicle crimes are closer to this property and other more affluent areas of Clifton.

These opportunist crimes are something of concern at this property due to the cover provided by Love Lane for undetected access and an easy escape route. This can be highlighted by a recent break in at the property. On October 18th, 11 of the garages at the rear of this property were broken into in the early hours of the morning (circa 2am). The intruders gained access by climbing over the Love Lane wall as this footage was captured by a rear facing CCTV camera on the property. With a rebuild to the wall they would look to increase security, explore providing footpath lighting, as well as repair the general state of the wall.
