

Key  Bird box - Apex Classic nest box

Note:  
 1no. bird boxes will be provided in a sheltered position out of strong sunlight, generally between the north-east and south-east elevation, approximately 2-4m above ground level. There should be a clear flight path to the entrance hole and be placed so the entrance is not exposed to strong sunlight or winds. For extra shelter, smaller boxes should be positioned at a slight forward angle. Boxes should be positioned out of reach of predators where possible (e.g. cats). Position boxes away from bird tables and other feeding areas where possible.

**Site Plan**

**Project:** Proposed Extension  
 1 Jubilee Close, Norton, BSE  
**Client:** Mr & Mrs Till

**Drwg:** 22 1796 001 **Revision:** B  
**Date:** May 2022 **Scale:** 1:200 @A3

**Revision A:** Updated with biodiversity enhancement. 29.01.24  
**Revision B:** Updated biodiversity enhancement. 31.01.24
