Description of proposed works

Please describe the proposed works

We propose to install 6 solar panels on an outhouse (summer house) at the back of the garden in the North of the property. The panels will be complimented by a battery inside the summer house. The panels will be on both of sides to the roof and will not be visible to the majority of the neighbours.

The current house is grade 2 listed and due to restrictions has single glazed windows. The addition of the panels will offset the current high carbon footprint of the house.

Has the work already started?*

No

Authority Employee / Member

It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the local planning authority.

With respect to the authority, I am*

None of the above
