To whom it may concern

I have been visiting this yard for over 30years to have my car repaired. Peter Keyton was living there at this time in 1987 for several years while working on site. I have visited Luke Keyton when he lived there in a caravan with his wife Yvonne,now deceiced , from approx 2004 until the council rehoused them in 2018.

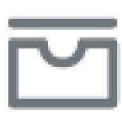

I have also visited Peter Keyton and his wife who were also living there in a self built home while between homes. This is land that they own and have run a car repair business on for all this time.

I had a friend called Debbie Gifford who is now 50+ who told me that she was born at the Yard in the late 1960s, her family lived there when she was growing up.

Please contact me if you want any more information  
Regards  
Debbie Cooke
