8. Description Of Proposal

Does the proposal consist of, or include:

a) The carrying out of building or other operations? Yes No

If Yes to a, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions):

The proposed works include the creation of two new openings. One will enlarge the existing rear (east facing) window to the sitting room, to increase natural light on the ground floor and to connect the sitting room to the garden. The second will be used to create a new main entrance. This will be located on the southern elevation of the west facing extension. This new entrance will form a more natural point of access, closer to the most frequently used pedestrian access from the north and will eliminate the need to pass through private spaces to connect with the building's vertical circulation. A direct link between the main entrance and the staircase will also improve the means of escape in the event of fire as the building is arranged over three storeys, therefore there is no means of escape from the upper storey.

b) Change of use of the land or building(s)? Yes No

If Yes to b, please give a full description of the scale and nature of the proposed use, including the processes to be carried out, any machinery to be installed and the hours the proposed use will be carried out:

If Yes to b, please describe fully the existing or the last known use, with the date this use ceased:

Has the proposal been started? Yes No
