Description of Proposed Works

Please describe the proposed works

Proposed Drop Kerb at the front of the property located at '280 Swindon Road' for better access. With 3x fully dropped kerbs (2.7m) and 2x transition kerbs totalling (4.6m) in width accessing the public footway adjacent to the property.

We further intend to remove one concrete post (post 4 in drawings) and install a set of wooden gates, with the ground being made up of only hard-core underneath and permeable yellow cotswold stone as the top layer acting as a natural drainage. No hardstanding (block paving/tarmac) or additional drainage of any kind will be added.

A dropped kerb would provide us with significant improvement for our family. The Swindon road is a bit of a unforgiving road with road users not always adhering to the speed limits. We have two sons, one of which is on the autism spectrum and crossing the road from either Swindon road or Waterloo street can be challenging and unsafe.

With also the planned development of the Folley field opposite and the school in operation we believe parking could be more challenging.
