

Proposed Section 1:50 @ A1

	ural elements to be designed and specified by
	the structural engineer. age to be thoroughly investigated on site and
Final kitcl	contractor to confirm final design. hen, bathroom & utility layouts/fittings/fixtures
	tbc by client & supplier/installer. number of electrical sockets and lighting points
tbc by clie	ent and installed by a fully qualified electrician. vorks to be carried out by a fully qualified gas
	contractor. k is to be carried out in accordance with the ng Regulations as a minimum requirement.
LEGEN	
DIST	Electrical distribution board
G	External gas meter
	External electrical meter
	Boiler
(E) (A)	Boiler flue Mains operated heat detector
<u> </u>	Mains operated smoke detector
©	Battery operated carbon-monoxide detector
60	Mechanical extract fan 60l/s (kitchens/utility)
30	Mechanical extract fan 30l/s (bathrooms)
\bigcirc	Roof/wall vent
UFH	Wet under-floor heating manifold
•	Radiator with thermostatic radiator valves
G	Drainage gully
○RWP	Rain water pipe Soil vent pipe
X	Inspection chamber
EV	Electrical vehicle charging point
TG	Toughened glass
OG	Obscured glass
SC	Door self-closer
FD30	Fire door (30 mins)
EE 🛚	Emergency egress Cavity closer
Ш	Air brick with telescopic vent
<u> </u>	Joist/rafter span
\longrightarrow	Direction of fall
	Structural beams or lintels
	Foundations
	Demolish
	Drainage runs
D.4.T-	DEVICION
