Brookside, Main Road, Shalfleet, PO30 4ND

Planning application ref: PP-12747314

Proposed garden wall.

### Heritage Statement

Brookside is a Grade 2 Listed, semi-detached 3-bedroom private dwelling.

Believed to have been built around 1760 using local Island stone, the two cottages may have been constructed in connection with the development of the Mill Race (western boundary of Creek Cottage adjoining Brookside) which powered Shalfleet Mill further downstream.

Being on the main thoroughfare through Shalfleet, Brookside has been prominent in many historical photos and drawings of the area,

As such, it is vital to protect the fabric of the building from the risk of potential damage which could be caused by subsequent flooding events in the future.
