## 9. Application checklist

Use this checklist to make sure the form has been completed correctly and all relevant information has been submitted. For works to trees protected by a tree preservation order, failure to supply sufficiently precise detailed information may result in your application being rejected or delayed.

In particular, you must provide the following.	
A completed and dated application form.	
A sketch plan showing the location of all tree(s).	
A full and clear specification of the works to be carried out.	
A statement of reasons for the proposed work.	
Evidence in support of statement of reasons – in particular, you should provide the following.	
A report by a tree professional – an arboriculturist or horticultural adviser – if your reasons relate to the health or safety of the tree(s)	
A report by an engineer or surveyor, together with one from a tree professional – arboriculturist – if you are alleging subsidence damage	
For works to trees in conservation areas, it is important to supply precise and detailed information on your proposal. You may therefore wish to provide the following.	
A completed and dated form, with all questions answered	
A sketch plan showing the precise location of all tree(s)	
A full and clear specification of the works to be carried out	
Whether the trees are protected by a tree preservation order or are in a conservation area, please indicate which of the following types of additional information you are submitting.	
Photographs.	
A report by a tree professional – arboriculturist – or other.	
Details of any assistance or advice sought from a local planning authority officer prior to submitting this form.
