[CAUTION: This email originated from outside of the organisation. Do not click on links or open attachments unless you recognise the sender and know the content is safe]

Dear Ms Bush,

Apologies for the omission of the documentation required as part of the above application. All of the required documents were supplied to the planning department as part of the pre-application ref PREAPP/00007/24, and I wrongfully assumed the 2 applications would be linked.

Please find attached the documentation requested. This is as follows:

All elevations of the existing dwelling (scale 1:100)

North, South and West elevations of the dwelling showing all proposed proposed changes, the East elevation remains unchanged (Scale: 1:100).

Images of the existing North, South and West elevations of the existing conservatory

Detailed elevations of the existing and proposed conservatory north and west elevations including dimensions (Scale: 1:50)

With regard to the heat pump, this is installed internally. I have included the location of the intake and exhaust vents which are the only visible aspects of the heat pump.

I trust that everything has now been supplied in order to further progress my application. Should you require any further information please let me know.

Regards

Del Parkinson
